

Good afternoon!

We are **looking for candidates for our investment internship programs** and wanted to reach out given your role within the University. We were hoping you could highlight this opportunity to talented students who are looking for roles in institutional investment management. **The Retirement System Investment Committee (RSIC)** is a fantastic place to work, with impactful assignments and competitive pay. Since this is our first touch point, please do not hesitate to reach out if you want to learn more about the opportunity (or RSIC) to be able to share with the right students. We are also happy to facilitate the potential for guest speakers in the future if that would be helpful.

For background, we are the investment arm of a \$40 billion state pension with exposure to hedge funds, private markets, and traditional public market assets. Our analyst rotational program has served as a pipeline for talent within our organization for the past six years as well as a place for students to successfully launch careers outside of our organization. More information on our organization is on our [website](#).

To apply:

We are currently hiring for investment interns for Summer 2023 (sophomores and juniors may apply). [Apply Now](#) , Handshake job #671384

Please note the deadline for applicants is September 30th.

If you have any questions, don't hesitate to reach out.

All the best,

Sally

Sally Fulkert
